

The CSW-10 is A.G.O.'s largest winch model, ideal for high cable capacity and/or high load applications.

Like all A.G.O. winches, its aluminum frame and drum help lower its overall weight compared to similar-scale steel winches for the same applications.

Typical dims*	62"L x 43"W x 39"H
Typical weight*	~950 lbs
Standard supported power sources	220VAC single-phase or three-phase power

* Dimensions do not include slip ring width. Weight does not include drum cable. Dimensions and weight are only approximate and will vary depending on each winch's specific drum, drivetrain, and feature configuration.

Features and add-ons

Dog clutch for freewheeling	Included
Drum pin lock	Included
Drum manual disk brake	Included
Manual backup auxiliary drivetrain	Included
Lifting handles for manual portability	Included
Levelwind	Add-on
Slip ring	Add-on
One-way drum ratchet	Add-on
Recovery assistance brake winch	Add-on
Encoder wire counting system	Add-on
Tension-limiting slip clutch	Conditional add-on
Winch-mounted A-frame boom	Not compatible

Operation interface options

	Local	Wired remote	Dual
Simple controls	Option	Option	Option
Joystick	Option	Option	Option
Belly pack	Option	Option	Option
